Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Claims 1-6, 12-20, 32, 33, 35 and 36 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected Group, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 10.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 7-11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Guidash (US6107655) in view of Lee et al (US6466265).

Regarding claim 7, Guidash discloses, in figure 3b, an image pickup apparatus comprising:

a plurality of unit cells arranged in an array, each unit cell including a plurality of photoelectric conversion portions (11, 12, 21, 22) and a common circuit (32, 34, 37) for inputting signals from the plurality of photoelectric conversion portions and outputting the signals from the unit cell;

Art Unit: 2612

a common output line (87) to which a plurality of f signals from the plurality of unit cells are output.

Guidash does not expressly disclose outputting the signals sequentially or adding the signals of a same color group outside of the unit cell.

Lee teaches in figure 2b that it is well known in the camera art to add signals of the same color in the color's respective output channel (see col. 3, lines 49-64). It would have been obvious to one of ordinary skill in the art to modify Guidash's device by implementing Lee's teachings of read out for color images. One would have motivated to do so in an effort to read out color images at high frame and pixel rates.

Regarding claim 8, Guidash discloses, in figure 3b, the common circuit comprises amplification means (32).

Regarding claim 9, see claim 7 above.

Regarding claim 10, Guidash discloses in col. 4, line 26 a read means (TG) for reading out signals from photoelectric conversion portions of two lines in a vertical direction by interlaced scanning.

Regarding claim 11, see claim 7 above.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
